

AMENDMENTS TO THE SPECIFICATION

Please amend the specification as indicated below.

Please replace the paragraph beginning on page 13, line 10 with the following amended paragraph:

The invention can be implemented in any suitable form including hardware, software, ~~or~~ firmware contained on a computer readable medium or any combination of them. However, the invention is preferably implemented as computer software running on one or more data processors and/or digital signal processors. The elements and components of an embodiment of the invention may be physically, functionally and logically implemented in any suitable way. Indeed, the functionality may be implemented in a single unit, in a plurality of units or as part of other functional units. As such, the invention may be implemented in a single unit or may be physically and functionally distributed between different units and processors.
